

SAFETY WARNINGS

CONSUMER WARNING: PLEASE READ IMMEDIATELY BEFORE USE

"Seller" refers to any entity or individual that directly or indirectly purchases, distributes, or sells WARRIORLAND® products. This also includes any customers for whom WARRIORLAND® provide OEM (Original Equipment Manufacturer) services. The definition of Seller encompasses but is not limited to the following categories: Agents, Wholesalers, Dealers, Retailers, Online Sellers, Suppliers/Manufacturers, Distributors, OEM Clients.

These warnings apply not only to the brand owner but also to sellers involved in the sale of WARRIORLAND® products. Any item labeled 'made by WARRIORLAND' is subject to these safety terms.

Regardless of how the user obtains the holster and other products (whether through purchase, gift, or any other means), must strictly comply with the safety warnings provided. WARRIORLAND® assumes no responsibility for any safety incidents resulting from the user's failure to follow these warnings.

LEGAL LIABILITY DISCLAIMER

This disclaimer is intended to comply with applicable laws worldwide and does not limit any legal rights or remedies that may be available to WARRIORLAND®. WARRIORLAND® advises all users to consult with local laws and regulations regarding firearm usage and ownership. The user is responsible for ensuring compliance with all applicable legal requirements in their jurisdiction.

WARRIORLAND® assumes no responsibility for any accidents, injuries, or damages resulting from the improper use or failure to adhere to the safety warnings and instructions provided. The user is solely responsible for ensuring the safe operation and handling of their firearm and holster. This includes, but is not limited to, verifying proper fit, regularly inspecting the equipment for wear or damage, and obtaining appropriate training in the safe use of firearms.

By purchasing and using WARRIORLAND® products, the user acknowledges and agrees that they fully understand the inherent risks involved in handling firearms. WARRIORLAND® shall not be liable for any injuries, deaths, or damages, whether to persons or property, arising from the failure to follow safety guidelines, improper usage, or misuse of the product.

For any concerns or questions regarding the safe use of our products, please contact WARRIORLAND® Customer Service at info@usawarriorland.com.

TRAINING AND PRACTICE

WARRIORLAND® Holsters and other product lines are designed to meet the demand for high-performance tactical products. Close tolerances for holster/handgun fit require consistent handgun specifications and characteristics as well as extremely precise holster design.

Before using this holster, whether for law enforcement, security personnel, military, private contractors, or civilian purposes, all users must thoroughly test the holster with their unloaded firearm to ensure proper fit and functionality. It is crucial to repeatedly draw and re-holster the firearm to verify smooth operation and prevent any obstructions.

If any issues are detected during testing — such as difficulty in drawing the firearm or improper fit — immediately stop using and wearing the holster. Do not proceed with its use under any circumstances. Contact the manufacturer, authorized dealer, or distributor for a replacement or repair.

Failure to perform these checks may result in an inability to draw the firearm in critical situations, potentially leading to serious injury or death. The manufacturer, dealers, agents, and any entities selling the WARRIORLAND® brand shall not be held liable for any personal injuries, fatalities, or property damage resulting from improper use of the holster, failure to properly test it, or failure to follow these safety instructions.

Users, including law enforcement officers, military personnel, security guards, private contractors, and civilians, are solely responsible for ensuring that their firearm can be drawn safely and securely from the holster. The manufacturer and all entities associated with the sale of WARRIORLAND® products disclaim any liability for misuse or failure to perform necessary safety checks. It is imperative that the holster be thoroughly tested before use in any situation where quick and unobstructed access to the firearm may be required.

PROPER HOLSTER FIT

DO NOT use WARRIORLAND® holsters with custom or modified guns unless the holster was made specifically to accommodate changes. Broken, worn or inferior manufactured guns, including guns that are not of original factory specifications. After-market grip adapters, target hammers, target triggers, trigger shoes, or other after-market handgun modifications may cause improper holster fit if the holster was not designed for it and increase the chance of an ACCIDENTAL HANDGUN DISCHARGE.

For your safety and the best product experience, it is strongly recommended that users strictly follow the guidelines provided in the product manual and refrain from making any unauthorized alterations to WARRIORLAND® products. WARRIORLAND® will not be liable for any accidents or injuries resulting from product modifications or improper use:

Holster Main Body-The main body of WARRIORLAND® holsters is made from high-strength polymer or other specialized materials, providing reliable protection and support in various environments. These materials have undergone strict durability testing to ensure that they maintain their functionality over time. Any modifications to the holster's main body, such as cutting, drilling, heating, or other alterations, will weaken its original strength and safety, increasing the risk of accidents during use.

Accessories-The accessories of WARRIORLAND® holsters, including but not limited to belt clips, adjustment screws, and brackets, are precisely designed to perfectly complement the holster body. These accessories are engineered to provide optimal carrying comfort and firearm retention. Unauthorized replacement or modification of these accessories may result in the failure of the holster's functionality, such as firearm slippage, instability while carrying, or the inability to draw the firearm quickly in an emergency.

Hardware Components-The hardware components of WARRIORLAND® holsters (e.g., fasteners, screws) are made

of high-quality metal materials and treated with anti-corrosion processes to ensure long-lasting durability in various usage environments. Modifying or replacing these hardware components, especially with substitutes that have not been tested or do not meet original factory standards, may result in loose or failing components, potentially leading to the holster's malfunction at critical moments.

NEVER PLACE A LOADED HANDGUN IN A HOLSTER WITHOUT FIRST TESTING FOR PROPER FIT WITH THE HANDGUN UNLOADED. Although WARRIORLAND® attempts to provide accurate information regarding which specific holster models were designed to accommodate a specifically identified handgun, or handguns, WARRIORLAND® does not warrant the accuracy of such information and disclaims any responsibility or liability for, or consequences resulting from, errors or inaccuracies in such information. Users are advised not to rely on such compatibility information but to personally verify holster/handgun compatibility in each and every case using actual products.

Keep thumb on back of hammer or slide when inserting handgun in holster to help assure no movement occurs during insertion. Always keep fingers clear of trigger when drawing or replacing handgun in holster. Place index finger on outside of trigger guard to resist inadvertent strap or foreign object interference when re-holstering.

Handgun manufacturers continually update manufacturing specifications in their quest for better products. These changes may occur one or more times within a particular handgun model year, and make it difficult for proper handgun identification and holster fit.

The slightest change in handgun design can have a major safety effect on the WARRIORLAND® product with close tolerances. Be advised that it is the user's responsibility to periodically check his or her holster and related hardware for proper fit and function. Should any product, including a WARRIORLAND® product, become worn, loose, broken, defective or ill-fitting CEASE USE IMMEDIATELY.

Our holster cannot prevent any safety incidents caused by firearm design flaws or aging. Wear on the magazine catch may cause the magazine to drop. Our holster is not intended to prevent issues related to magazine catch wear or damage. Users accept full responsibility for any related risks.

If WARRIORLAND® accessories are purchased separately, WARRIORLAND® will not be responsible for any issues arising from holster bodies supplied by other manufacturers.

It should be noted that NO HOLSTER IS COMPLETELY SNATCH-PROOF OR TAKEAWAY-PROOF. Therefore, the user must exercise extreme diligence at all times in any situation where another person may attempt to take the user's handgun.

Wearing a holster during intense physical activity is not recommended due to the potential risk of injury or discomfort. Such activities include, but are not limited to, running, swimming, jumping, aerobic exercises, strength training, combat sports, and extreme sports. If your holster is equipped with safety straps or pivoting hoods, ensure they are always secured. However, please be aware that unexpected external forces, such as impacts, collisions, accidents (e.g., traffic accidents), or falls, may compromise the holster's functionality. In such cases, the holster may not securely retain the firearm as intended. It is essential to exercise caution when wearing a holster in high-risk environments or during strenuous activities.

If the user has any questions or doubt concerning holster fit, contact WARRIORLAND® immediately as to which version of a particular handgun you and/or your customer may possess and its compatibility with WARRIORLAND® holsters.

OTHER VERY IMPORTANT WARNINGS

Firearm Safety

Always handle firearms with the utmost care. Follow the four basic rules of firearm safety:

Treat all guns as if they are loaded;

Never point the gun at anything you do not intend to destroy;

Keep your finger off the trigger until you are ready to shoot;

Be sure of your target and what is beyond it.

Environmental Conditions

Avoid leaving your holster in environments where it might get too hot, cold, or damp as it will modify the holster's features. Keep the holster clean and dry. Moisture can weaken leather holster and cause it to lose shape. Keep the holster away from oils, solvents, and other chemicals that can degrade the leather or affect its integrity.

Children and Unauthorized Users

No product manufactured by WARRIORLAND® is a toy, children and minors are not allowed to use. If you leave your firearm in this loaded state, you can't just lay it in your underwear drawer, hoping no one will find it. We strongly advise you to get a gun safe.

Training and Familiarization

Regularly practice with your holster to become proficient in drawing and re-holstering. Familiarity with your gear is essential for safety and effectiveness. Verify proper handgun fit before use and on an ongoing basis. Certain accessories, including compensators, may "snag" on the holster, preventing a safe and expedient draw.

Thank you for choosing WARRIORLAND® products. Your safety and satisfaction are our top priorities. We strongly encourage you to thoroughly read and adhere to all safety warnings and guidelines provided in this document. Proper use and regular practice are essential for ensuring the safety and longevity of your firearm and holster.

If you have any questions or concerns, please do not hesitate to contact WARRIORLAND® Customer Service at info@usawarriorland.com. We are here to assist you and provide any necessary support.

The final right of interpretation belongs to the brand owner.
